RE: Marietta Boulevard / Bolton Road Quality of Life Projects
City Contract FC-6005007887-B
Additional Design Services

Dear Mr. Holder:

This letter provides an explanation and general scope for the revised Design for the Marietta Boulevard / Bolton Road Quality of Life Projects.

The proposed work revision is for the Marietta Boulevard CMAQ project. For the roadway section from the Coronet Way / Marietta intersection to the Chattahoochee Avenue / Marietta intersection, revised Design Service are required to construct sidewalk and associated improvements along both sides of Marietta Boulevard where the previous scope only included the northeasterly side of the roadway. The requested revision by the City will include revisions to the approved ROW plans, the completed preliminary plans and then the final construction documents. All of the work will be completed in accordance with the GDOT PDP process required for a CMAQ project and for the approval of Quality of Life staff.

We proposed a contract task order amount of \$27,282 for this design task. A detailed breakout of the associated hours and cost is included as an attachment. Please contact us if there any other additional task that need to be addressed in this scope.

Sincerely,
POND & COMPANY

RE: Marietta Boulevard / Bolton Road Quality of Life Projects
City Contract FC-6005007887-B
Additional Survey Services

Dear Mr. Holder:

This letter provides an explanation and general scope for the revised Design for the Marietta Boulevard / Bolton Road Quality of Life Projects.

The previously completed work included additional survey as required complete the conceptual design of the Moores Mills Extension. While the final scope of our Design work for the Marietta Boulevard / Bolton Road Intersection project only include improvements along Marietta Boulevard, it was necessary to complete a conceptual design extending Moores Mill to from Bolton Road to Marietta Boulevard in order to define the improvements for the Boulevard. This design was also completed to provide the City with ROW requirements for commercial developments along the roadway extension. The original scope of our survey effort did not include the area of the Moores Mill extension or the existing Moores Mill and Bolton Road intersection. Also at the request of the City, the project survey was completed prior to the completion of the conceptual design work the provided our final design scope.

We proposed a contract task order amount of \$16,705 for this design task. A detailed breakout of the associated and hours and cost is included as an attachment. Please contact us if there any other additional task that need to be addressed in this scope.
